## Projects

- BloomHer - A health-focused mobile app tailored for women with PCOD/PCOS to monitor their menstrual cycles, symptoms, and lifestyle factors. It offers personalized insights, reminders, and expert-backed wellness tips to support hormonal balance and reproductive health, with virtual assistance.

[Project Link](#)

[Github Project Details](#)

- Alumni Association- A community-driven platform designed to connect alumni with their alma mater and fellow graduates. It supports event planning, networking opportunities, job postings, and updates, fostering lifelong relationships and professional growth.

[Project Link](#)

[Github Project Details](#)

- Chinese Audio Translator- A real-time Chinese audio translator! It captures spoken Chinese, converts it to English text, and even plays it back in English audio — all seamlessly. Excited about the potential this has for breaking language barriers in global meetings!

[Project Link](#)

[Github Project Details](#)

- Maximus Unisex Gym- A fully responsive gym website featuring service details, trainer profiles, class schedules, and a contact form. It offers a clean design and smooth navigation across all devices. The site is optimized for all devices and offers an engaging user experience.
